Описание: Rustic property in the center of Cancelada with almost 3,827 m<sup>2</sup> of land with a swimming pool and fruit trees. The construction is separated into three homes (with different deeds), a large basement, swimming pool and irrigated field, currently used for fruit trees. It is a particularly interesting project for investors who would like to convert it into a small aparthotel or apartments for rent, or for someone interested in renovating it and converting it into a single large house with land in the center of town. Also as land to build more homes, the location would be very interesting and highly profitable for the future.
